
THE BRENTON ARBORETUM
TRAIL & FEATURE MAP

THEMED TRAILS

Lake Homestead Trail is a peaceful loop around the lake with access to our water deck.

Leaf Walk Trail takes visitors through one of the most botanically diverse areas in our collection and through our restored tallgrass prairie.

Overlook Pond Accessible Trail provides a paved surface with minimal slopes so visitors of all mobility levels can experience the beauty of the Arboretum.

Oak Collection Trail winds past our Nature Play area and around Overlook Pond. The trail features the majority of our expansive oak collection which boasts 245 trees representing 27 different kinds of oak.

North Loop Trail features trees that are native to Iowa and the Midwest.

Conifer, Crabapple, & Maple Trail This trail loops through fir, pine, spruce and other conifers as well as an array of crabapples and maples whose beauty changes with the season.

Valley Trail is a secluded trail through pecans, pin oaks, and views of our stream.

Stream-Side Trail hikes along the west side of our stream through collections of linden, maple, fir, and elm.

Eddy Woods Trail runs along the stream in the shade of woodland trees. The Arboretum is working to restore native Iowa woodland species throughout the Eddy Woods area.
